

Virto Industrial Supply

Terms and Conditions of Sale

Effective 1 January 2026

These conditions govern all sales made by Virto Industrial Supply.
They are referenced by every quotation, order acknowledgement and invoice.

Questions about these conditions should be directed to the legal department,
legal@virtoindustrial.example, or to your account representative.

1. Application

These conditions apply to every quotation, order acknowledgement and contract of sale made by Virto Industrial Supply. Any terms the buyer puts forward are excluded unless accepted in writing by an authorised representative of the seller.

2. Prices

Prices are those in force on the date of despatch and are exclusive of taxes and duties. Prices quoted in a volume pricing agreement apply for the agreement term and supersede the published list price for the products named in it.

3. Payment

Payment is due net 30 days from the date of invoice unless the account carries agreed alternative terms. The seller may suspend deliveries on any account exceeding its credit limit or payment terms.

4. Delivery

Delivery dates are estimates given in good faith. Risk passes on delivery to the buyer or its carrier. Title remains with the seller until the invoice is paid in full.

5. Inspection and shortages

The buyer shall inspect the goods on delivery. Claims for shortage or damage in transit must be notified within five working days of delivery, quoting the order number.
